Position: **Cyber Security / Systems Administrator**

Company: **Gatekeeper Systems Inc.**

Location: **Abbotsford, BC**

Type: **Full Time - Permanent**

Who We are:

Building Safer & Smarter Communities

Gatekeeper Systems Inc (Gatekeeper) is a leading provider of intelligent video and data solutions designed to provide a safer transportation environment for children, passengers, and public safety personnel on multiple transportation modes. The Company uses AI, video analytics, thermal cameras, and mobile data collectors to inter-connect public transit assets as part of intelligent transportation systems in a Smart City ecosystem. The Company is at the forefront of innovation and is utilizing new technologies to make cities more efficient and safer, such as its Automated Lane Enforcement solution for transit buses (ALE™). The Company's video and data solutions and its Platform-as-a-Service (PaaS) business model are enabling the transformation of transportation systems into intelligent transit and Smart Cities.

As an innovative technology company located in the heart of the beautiful Fraser Valley in Abbotsford, BC, this dynamic and fast-growing organization offers a unique blend of leading-edge technology and expanding career opportunities in a collaborative, team-based environment. Join us and you'll work with seasoned professionals and engaged new talent on challenging and rewarding value-driven projects.

Gatekeeper is listed on TSX-V:GSI and OTC:GKPRF. For more information on the company, check out our website www.gatekeeper-systems.com

The Position:

The position involves developing and maintaining corporate cyber security policies and procedures, as well as ongoing support and maintenance of corporate infrastructure on our online commercial service offerings.

Key Duties and Responsibilities:
